

**PRESENTS:**

**Now Registering for Fall 2006**

★ With today's busy schedule, families are finding it more and more difficult to manage work, school and outside activities. Coming home at 7, 8 or even 9 o'clock only to have to finish homework! We understand these struggles and have adopted a program to assist, busy families such as yours, in helping your child finish the day while enriching their lives with activities that stimulate both their mind and their bodies!

**OUR OBJECTIVES FOR YOUR CHILD ARE:**

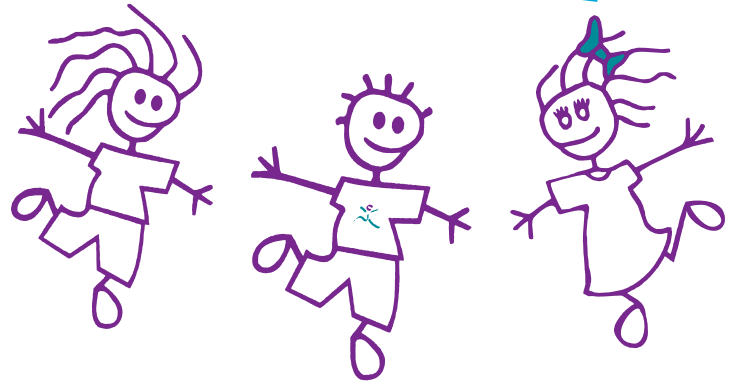

- ★ Assist each child in completing homework (#1 Priority).
- ★ Work closely with Teachers and parents so your child can achieve maximum benefit from their after school experience.
- ★ Actively engage your child through a hands-on approach to learning - Science experiments, Computer lab, Arts-Crafts and More.
- ★ Give each child an opportunity to experience many different and exciting sports and activities they can only experience at Balcony.
- ★ Create an environment where we can balance accomplishing academic tasks while enjoying many different activities Balcony has to offer.

★ **It's going to be AWESOME!**

FOR ALL THE DETAILS CALL TODAY!!
